

Dear Customer,

As you know, the Broadband Network Solutions (BNS) division of TE Connectivity was acquired by CommScope. In accordance with the terms of sale, CommScope must transition away from the TE, Tyco, TE Electronics, TE Connectivity and AMP (when used alone) brands or logos (collectively "TE brands"). For the next few months we will be removing the TE brands from our shipping boxes and the shipping labels to fulfill this obligation.

Ultimately, the shipping boxes, labels and print legends on cables jackets will match the standard used by CommScope. With no change on the products performances and specifications.

If you have any questions about your deliveries or support, please contact Commscope Customer Support. We appreciate your business and flexibility during this transition.

*Jimmy*

Warm regards,

Jimmy Ng
