

LST600B High Power Hand Extruder:

- 1) Voltage: 220V
- 2) Power: extrusion system drive motor: 800W
heating systems: heating tube 800W + hot air welding torch 3400W
- 3) Temperature: adjustable air temperature 20 to 600 ° C
adjustable plastic extrusion heating temperature is 0 ~ 450 ° C
- 4) Preheating air volume: 500L/min
- 5) Welding rod diameter size: Φ 3.0mm ~ 4.0mm

LST610A High Power Hand Extruder:

- 1) Voltage: 220V
- 2) Power: extrusion system drive motor: 1020W
heating systems: heating tube 1020W + hot air welding torch 1600W
- 3) Temperature: adjustable air temperature 20 to 600 ° C
adjustable plastic extrusion heating temperature is 0 ~ 450 ° C
- 4) preheating air volume: 500L/min
- 5) welding rod diameter size: Φ 3.0mm ~ 4.0mm
